

Summer Teenager Intensive English & Activity Course

Ages: 13-15 years & 16-17 years

20th June - 26th August 2011 (minimum 2 weeks)

TOTAL IMMERSION The best way to learn

Intensive English with cultural activities, sports and social events. This is the perfect way to rapidly learn about the British language and culture. Students stay in a local British home stay. This encourages students to speak lots of English which will quickly develop their English communication skills. The daily classes are hard work, the activities are fun. We have a good nationality mix to make the course a true cultural experience.

ACCOMMODATION

We take this very seriously and carefully inspect all families. Because we are the only school in the area, we can be very selective. We only choose the best. Most are within easy walking distance; the rest will drive and collect the student each day. You will get three good meals per day and when with the host you will eat together as a family.

CARE AND ATTENTION

All of our students are special and will be cared for by each and every member of the team. We have a designated Welfare Officer who will talk to the students regularly to check everything is okay. Problems will be dealt with immediately. Hosts will look after students like their own children and always contact the school if they detect any problems.

Week 1 Typical Timetable - Bury St. Edmund's

NB: Homework is set every day and tests are given every week
